

**MaWay
Driving
School**

3 Users (School, Instructor & Student)

Project Overview

Maway is a SAAS based driving school app. Here driving schools can register in the system to do their course curriculum. Manage all of their students and instructors in a single place. Driving Instructors also can register themselves in the Maway system. From the instructor app, they can manage their classes with students. And can join multiple schools to work in their free time as freelance instructors. Students also can register themselves in the Maway system. They can track all of their course curriculum from the Maway Student app. Students can choose their lesson from their suitable time when they want to.

School's Problem

- ✓ Courses, Curriculum had to handle manually.
- ✓ Hard to get freelance Instructor.

Instructor's Problem

- ✓ Hard to find school for freelancing work.
- ✓ Student grade handle manually.
